Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 46-67 are, drawn to Method of positioning a marker, classified in class 600, subclass 431.
- II. Claims 68-78 are, drawn to Method of removing breast tissue and inducing a marker, classified in class 606, subclass 116.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication should be directed to Jerome Donnelly at telephone number 308-2668.
